WE ARE PEOPLE & MACHINES

THAT THINK

Right now, around the world, the people of the Burke Porter Group companies are thinking, creating, executing. We design and innovate solutions to complex applications that are at the forefront of Industry 4.0 and beyond.

AT BPG WE THINK ABOUT

- Intelligent Assembly & Automation
- Industrial Balancing
- Additive Manufacturing
- Non-Destructive Testing
- Precision Manufacturing
- Automated Inspection
- Noise, Vibration, Harshness (NVH) Testing Systems
- End of Line Testing
- Field Testing & Compliance
- Laboratory Testing (Dynamometers)
- Refrigeration Technology
- Microfluidics
- Precision Motion

WE ARE

Advancing The Machine™ through engineering, service & collaboration

Individually and as a group, BPG companies collaborate with their customers to engineer innovative solutions to their manufacturing and design problems. And, once they're up and running, the companies of the Burke Porter Group continue to support those installations through the entire life-cycle of a project – from conception to eventual advancement.

Engineering

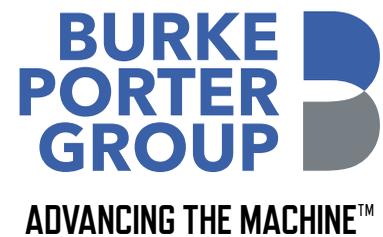

BPG engineers solve complex problems in a holistic and timely manner. Over a third of BPG people around the globe are either engineers or degreed technicians with multidisciplinary backgrounds. When you engage with a BPG company, you are tapping into a worldwide resource of creativity and accuracy unmatched by any other company or group.

Service

BPG and its companies service the most significant names in manufacturing. Our long history of supporting automotive OEMs and tier companies has given us a direct, first-hand understanding of what it means when someone says, "I simply cannot have downtime!" Because of this, our number one corporate value is an unequalled, high-level of customer service.

Collaboration

Creating a manufacturing program is a collaborative and complex endeavor with many moving parts. When you engage with a BPG company, we are with you all the way from conceptualization, project management, installation, test, and operation. The people of BPG are part of a worldwide group dedicated to solving problems – helping, building, collaborating.

Around the world, team members of the Burke Porter Group are committed to serving industrial transformation. With a long-standing reputation for innovation and collaboration, the brands of BPG are dedicated to solving complex manufacturing, testing and validation problems for our customers.

With increasing demands for differentiation and absolute quality, BPG customers depend on our advanced manufacturing and testing solutions to leap ahead. Around the world, 24/7, BPG brands are intelligently advancing machines to assure customers' success.

Helping, building, collaborating -
Together, we are Advancing The Machine™
